

KMRD Partners and Ankura have partnered with a global leader in cyber insurance to offer clients up to 20% off their cyber insurance premium. Five percent discounts are offered following an assessment and an additional 15% subsequent to the remediation of any critical network vulnerabilities. An assessment will allow you to identify critical vulnerabilities within your network, organization, procedures, and policies. Find out how you can significantly improve your organization's security posture, while limiting your liability in the event of a data breach.

THE BENEFITS

- 5% premium policy discount after initial vulnerability assessment
- 15% premium discount after any critical network vulnerabilities are remediated
- Work with an A.M. Best-Rated A, VII carrier. Industry leader in cyber insurance coverage
- Proactively identify and address potential vulnerabilities at a pre-negotiated discounted flat cost

THE FACTS

- The average cost of a global data breach is \$3,620,000
- The average cost per stolen record in the US is \$141
- The likelihood of a data breach is 22% when you have more than 10,000 records
- U.S. companies reported paying over \$690,000 on average for breach related notification costs
- In 2017, there was a 27.4% increase in the average number of security breaches

CYBER SECURITY ASSESSMENT: \$12,000

A complete assessment on each of the key components of cyber security; policies, employees, and technology:

Policy assessment

- Gap analysis on your existing policies against best practices

Employee awareness assessment

- Employee survey
- Mock-phishing exercise

Technical assessment

- Host discovery scan
- Network vulnerability scan
- Web application vulnerability scan

*The technical assessment is limited to 250 hosts
